EDUCATION

University of Illinois Urbana-Champaign GRADUATED MAY 2021
BS in Computer Engineering

AWS Certified Cloud Practitioner - Associate PASSED FEB 2024

EXPERIENCE

BUSIFY | Full Stack Web Developer FEB 2022 - PRESENT, REMOTE

- Leading role with responsibility working on frontend, backend, infrastructure, contributing to designs, refining stories, managing other developers, onboarding new hires, and resolving customer feedback
- Developed prominent features such as displaying live tracking, processing payments, integrating external API's, custom emails, PDF's, and interactions between the web and mobile app
- Eliminated frontend testing tech debt by writing over 500 unit tests using Jest
- Promoted 3 months early to mid-level developer position

TCS | Software Engineer MAY 2021 - FEB 2022, REMOTE

- Led our group of five new hires to first place in the training competition, building an Angular and Java website
- Allocated to Boeing to monitor and support an internal Java application

OCULO.AI | Software Developer Intern APR 2020 - JUN 2020, LONDON

- Built an internal Python tool to accelerate the product's pipeline and improve ease of use through features such as importing, a general undo button, and improved UI

JOHN DEERE | IT Intern MAY 2019 - AUG 2019, ILLINOIS

- Handled DevOps requests for all repositories and assisted in developing tests for the John Deere Sales Center

PROJECTS

LEGACY | App JAN 2024 - PRESENT

- Currently designing and developing a desktop and mobile app combination that will use today's latest research to optimize a user's to do list, habit tracking, and productivity through UI / UX decisions and text prompts

REACT REACT NATIVE TYPESCRIPT ELECTRON SASS FIGMA NODE.JS MYSQL JEST

PERSONAL SITE | Website APR 2024

- Designed and developed using technologies such as WebGL, event listeners, SVG filters, and CSS animations

NEXT.JS TYPESCRIPT TAILWIND WEBGL FRAMER MOTION FIGMA VERCEL

TENEEZ | Startup NOV 2019 - JUN 2021

- Co-founded a tech startup, handling frontend development and leading a team of four developers
- Led marketing efforts, crafted ads, and engaged with customers to reach over 40,000 users
- Placed 2nd at the College New Venture Challenge and participated in the Chicago Polsky Accelerator in 2020
